

## INTERBAC

### The New Range of Pasture Troughs

With a capacity of 600 litres (160 gal), 1000 litres (264 gal) and 1500 litres (396 gal), the light and sturdy INTERBAC troughs are designed to be used on pasture no matter how big the size of your herd is.

The INTERBAC troughs can be equipped with an optional float valve. The valve sits well-protected behind a stainless steel cover.
